**TRANSERVICE ANNOUNCES LAUNCH OF TECH-BASED FREIGHT MANAGEMENT COMPANY:
TIS - TRANSERVICE INTEGRATED SOLUTIONS**

LAKE SUCCESS, NY, JANUARY 5, 2016: Effective immediately, **Transservice Logistics Inc.** is announcing its launch of tech-based freight management entity **Transservice Integrated Solutions**, also known as **TIS**. Based in downtown Los Angeles, TIS will leverage its proprietary technology to fulfill company backhauls and provide freight management and brokerage services.

TIS was formed through the acquisition of logistics technology company Logistadvise Inc. Logistadvise was originally founded by Eric Spearin and Radek Duda. The acquisition provides the TIS team with a proprietary software platform that emphasizes automation, efficiency and cost-savings when executing shipments.

The platform is accessible at <http://www.ShipTIS.com> and consists of a TMS, Freight Marketplace, Live Load Tracking, Freight and Capacity Data Analytics, Business Intelligence and Reporting. Additionally, the entire platform is EDI and API ready and can be integrated into existing industry software. Clients have the option of allowing their shipments to be processed by TIS or to use the platform themselves to leverage

TRANSERVICE ANNOUNCES LAUNCH OF TECH-BASED FREIGHT MANAGEMENT COMPANY

their own operations. In fact, ShipTIS.com has already been operational to a select number of clients since October of 2015, and is now available to the public.

Transervice has been providing transportation solutions since 1969, and is known for its cost effective and dedicated transportation solutions to a substantial number of significant fleets at 120 locations across North America while handling over 24,000 road vehicles of every configuration. With the launch of TIS, Transervice has added freight management to its diverse logistics portfolio.

To learn more about TIS, please visit our website <http://www.shiptis.com/> and for those interested in TIS as a client or carrier, please contact sales@ShipTIS.com or call 844.744.7847 directly.
